EDUCATION

University of California, Berkeley | *Class of 2029*

Berkeley, CA

- **Major:** Computer Science, Data Science, and Music
- **Relevant Coursework:** Structure and Interpretation of Computer Programs, Discrete Mathematics and Probability Theory, Data Structures, Foundations of Data Science, Linear Algebra and Differential Equations, Intro to the Internet (Fall 2026)

WORK EXPERIENCE

Memori Labs AI

May 2026 – Present

Student Ambassador

San Francisco, CA

- Introduced short-form content to increase views & reach by 25% for our product: structured memory for LLMs and AI agents
- Manage publicity across 6 social media channels, growing our community by over 300 users in under 2 months
- Capitalize on current social media trends and popular topics in the AI space to promote our company and product

Berkeleytime

Aug 2025 – Present

User Relations Lead

Berkeley, CA

- Run website used by over 20K students to browse classes, generate schedules, and plan for graduation requirements with ease
- Improve usability and debug errors on frontend and backend of website running on React using TypeScript and Javascript
- As UR Lead, manage publicity on Instagram, designing graphics on Canva and Figma, and editing videos in CapCut

Southland Polymers Inc.

May 2024 – Jul 2024

Business & Technology Intern

Santa Fe Springs, CA

- Proposed AI integration to optimize prospecting efforts by 20%, including email outreach and client generation
- Improved the Product Line Card design for potential customers and updated important documents on the company website
- Enhanced operational efficiency for HR department by digitizing credit card applications and travel request forms

North Carolina State University

Jun 2023 – Aug 2023

Educational Software Development Intern

Raleigh, NC

- Developed educational games in *Snap!* and created detailed guides for both teachers and students for each lesson
- Led and designed 6 distinct projects over 6 weeks, contributing 20 hours per week remotely to ensure quality of lessons
- Collaborated daily with advisors and team members to discuss and refine the weekly project focus

PROJECTS

Nat One | *AI Dungeons Master for Dungeons & Dragons*

CalHacks 2025

- Ideated, designed, and programmed an AI Dungeons Master that generates a D&D plot and audio based on user audio input
- Incorporated the Lava API to generate a story, analyze the user's input, and proceed with the story using the new information
- Utilized the Fish Audio API in order to support user audio input, transcription from audio to text, and generate audio output

NeuroStigma | *Data Visualization of Mental Health Within Minorities*

Code with Klossy 2023

- Led a team of 3 in the development of a website aiming to reduce the stigma surrounding mental illness in minorities
- Cleaned & graphed data, making it into a multiple line chart showing the rate of diagnosis of mental health within minorities
- Analyzed data by generating charts with Python & researched the importance of minimizing data bias in facial recognition

RESEARCH

Tech in Music | *UC Berkeley* | *Fall 2025* | Conducted field work & analyzed existing literature on the evolution of tech in music

Business AI | *Southland Polymers Inc.* | *Summer 2024* | Studied & presented on potential integrations of AI in traditional businesses

AI Music | *The Coding School* | *Spring 2023* | Studied the underworkings of AI music construction and the ethics of using AI music

SKILLS & AWARDS

Skills: Languages (*Java, Python, Scheme, Typescript, HTML, CSS*); Web Dev & Full-Stack (*React, GraphQL, Node.js, MongoDB*); Data Science & AI/ML (*Pandas, NumPy, matplotlib, sklearn*); SWE (*OOP, Functional Programming, Git/Github, Jupyter Notebooks*)

Awards: Diamond Challenge Business Innovation Pitch 2nd Place, NCW Info Tech Aspirations in Computing Orange County Winner

LEADERSHIP

Taiwanese American Student Association | *Family Leader*

Jan 2026 – Present

- Plan and host events, managing budget and communication while fostering collaboration, adaptability, and initiative
- Encourage a sense of community while connecting with our culture through our shared experiences, values, and beliefs
